Chair and Directors
Comox Valley Water Committee

Re: Water conservation bylaw review

At its meeting on Monday, June 15, 2015, the City of Courtenay council considered a report on water conservation initiatives. As chair of the Comox Valley water committee, I feel it is important that the Comox Valley Regional District and its partners continue this discussion on conservation. To that end, I ask the committee to consider the following requested action:

THAT the Comox Valley water management advisory committee review the water conservation bylaw and current conservation measures, restrictions and enforcement

AND FURTHER THAT the management advisory committee develop consistent public messaging regarding regional district and municipal water conservation practices and strategies.

Sincerely,

B. Wells

Bob Wells
Director
